# QUALITY POLICY

## QUALITY POLICY

In line with its vision, Alplas aims to be the most trusted and preferred company in the fields it operates, and adopts the following principles to achieve this goal.

- The senior management provides necessary support and engagement in order to achieve the highest quality at an international level.
- Attempts are made to ensure that the employees at every level adopt a sense of quality and are engaged in an effort to continuously improve the Quality Management System.
- Necessary methods are implemented as necessary for the employees at every level to be aware of and understand the expectations of the customers and markets.
- New technologies are followed and those considered useful are put into practice continuously improving the total quality level and enhancing the level of customer satisfaction.
- Methods are developed and put into practice to prevent mistakes and errors adopting the understanding of “Zero-Error”.
- Innovative strategies are created to ensure that the employees at every level are aware of, understand and comply with the quality policy.

This policy applies to the following group companies of Alplas.

- Acron Elektronik Sanayi ve Tic A.Ş
